

MEET SOME OF THE SISTERS ON THE NATIVITY SEWING PROJECT

Iwona (#2), with her two children and her mother. She has never sewn before, and supports her family by the donations for her sheep and babies. This family lived in 2 small rooms with no bathroom, and God has since given a small home in the attic room upstairs, through the donations for her sewing.

Basia and her family, standing outside their home in their village. Basia makes the King with the crown. This family came to the Lord through the feeding program for children at the Mission. Basia rides her bike a 20-km round trip weekly to drop off her Kings to the Mission.

Iwona (#3), came to the Mission as a homeless lady and pregnant. (She had 6 other children, in foster care or a Children's Home). She is now walking with the Lord and does much of the cutting for the nativity Sets. The cut pieces are put onto the church bus each week, and exchanged by the village women for their sewn and completed dolls. (Three of her children now live with her at the Mission)
